

50 Million Round March

Fire ten rounds at this target on Father's Day, Sunday, June 18, 2000

The mission of the "50 Million Round March" is to send an unequivocal, annual message to our elected representatives and to those who would infringe on our unalienable right to self defense as enumerated by the 2nd amendment ... DON'T TREAD ON ME!, we are numerous, we are committed and we will not give up the right to defend our families.!

We call on all patriot Americans, regardless of race or creed, who hold the Constitution and Bill of Rights to be the best enumeration of our most important God given rights, and who are willing to defend it against all enemies foreign or domestic, to join us on Father's Day in sending this message to our elected officials and those who would deny us of our 2nd amendment rights.
